SYMPTOMS OF OVEREXPOSURE for each potential route of exposure. (Possible Longer Term Effects ) N/A

SIGNS AND SYMPTOMS OF EXPOSURE (Acute effects)
Inhaled: No adverse effects are anticipated from inhalation

Contact with skin or eyes: Short exposure not likely to cause significant skin irritation. Eye Contact may cause slight, temporary eye irritation

Absorbed through skin: Skin absorption is unlikely due to physical properties

Swallowed: Single dose oral toxicity is believed to be low. No hazards anticipated from ingestion incidental to industrial exposure.

SUSPECTED CANCER AGENT?
___X_ NO: This product’s ingredients are not found in the lists below.

YES: _________ Federal OSHA_______ NTP_________ IARC

IV.FIRST AID : EMERGENCY PROCEDURES

Eye Contact: Hold eyelids apart and immediately flush eye with plenty of water for at least 15 Minutes. Get medical attention immediately.

Skin Contact: Hold eyelids apart and immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin Contact: Wash off in flowing water or shower
Inhaled: No adverse effects

Swallowed: No adverse effects anticipated by this route of exposure incidental to proper industrial handling.

V. FIRE AND EXPLOSION

Flash Point method): Non-flammable or combustible in liquid form
Auto ignition temperature, OF: N/A
Flammable limits in air, volume %: Lower (LEL)  N/A Upper (UEL) N/A
Fire extinguishing materials: ______ x____ water spray ______ carbon dioxide ______ other: ______ foam ________ dry chemical

Special fire fighting procedures: N/A

Unusual fire and explosion hazards: As latex, material is not combustible; however, the dried resin is combustible similar to wood. Burning dry resin emits dense, black smoke.

VI. SPILL, LEAK, AND DISPOSAL PROCEDURES

Spill response procedures (include employee protection measures): Flush area with water immediately. Avoid unnecessary exposure and contact. Wear safely glasses and impervious gloves.

Preparing wastes for disposal (container types, neutralization, etc.): Soak up with absorbent materials. Store in pails or drums. Bury in an approved landfill or burn solid wastes in an adequate incinerator. If enters sanitary sewers, flush with large amounts of water.

NOTE: Dispose of all wastes in accordance with federal, state and local regulations.

VII. Handling and Storage

Should store at temperature between 40-100 F.

VIII. Exposure Controls and Personal Protection

Ventilation and engineering controls: Good general ventilation should be sufficient for most conditions.

Respiratory protection (type): No respiratory protection should be needed if good ventilation is maintained.

Eye protection (type): Use chemical goggles or safety glasses.

Gloves (specify material): Impervious gloves, vinyl or rubber.

Other clothing and equipment: Wear clean, long-sleeved, body-covering clothing.

Work practices, hygienic practices: Maintain good housekeeping standards.
Other handling and storage requirements: N/A

Protective measures during maintenance of contaminated equipment: See above.
