

## CLENZA GA Grout & Adhesive Remover

An acidic cleaner which can be used to remove grout and adhesive haze, hard water deposit and other hard stains from tile surfaces. It is water soluble and can be used at desired concentration levels for stain removal.

### Features / Benefits

- Economical
- Fast Acting
- Easy to Use
- Ideal for Interior & Exterior areas

### Substrates

- Unglazed Ceramic Tile
- Glazed Ceramic Tile
- Porcelain
- Vitrified Tile
- Glass Tiles
- Glass Mosaic Tile

### Areas of application

- For interior & exterior cleaning applications of Tiles surfaces

### Certifications

Member of  
**Indian Green Building Council**

## MIXING AND APPLICATION:

Note: Shake the container well for one minute before opening the container for use.

### FOR HARD STAINS

- Mix 1 part of Clenza GA to 3 parts of water.
- Apply over stained area and scrub with medium soft brush. Let it stay for 4-6 minutes and keep scrubbing periodically.
- Clean the surface with warm water for better results.
- Do not allow Clenza GA to dry on the surface. After application procedure, neutralize the area washing with clean potable water.

### FOR REGULAR FLOOR CLEANING:

- Dilute Clenza GA in ratio of 1: 10 with clean water.
- Apply over stained area and scrub with medium soft brush. Let it stay for 3-5 minutes and keep scrubbing periodically.
- Clean the surface with warm water for better results.

## TECHNICAL DATA

Appearance	Colourless to pale yellow Clear Liquid
Specific gravity	1.06-1.08
PH	<2

### Cautions :

Always protect neighboring surfaces including wood, carpet, metal, landscaping and other surfaces.  
Acids, no matter how mild, may etch, lighten or alter the color of tile depending on the quality of tile. Repeated acid washing may damage some surfaces.  
Avoid contact with metals.  
Do not mix with ammoniated cleaners as harmful fumes may result.  
Allow all new epoxy grout to cure as per the manufacturer's specification before using CLENZA GA. When coming in contact with Cement based grouts, it may affect the performance of the grout; may change the color of the grout. Please note that this is an acidic based cleaner and hence care should be taken while using the same. Please wear hand gloves, nose cover and wear eye protection before and while using the product. KEEP OUT OF REACH OF CHILDREN.

**Do not use on Marbles and similar natural stones surfaces. Use MYK Laticrete's CLENZA AQ for cleaning all Natural stones and Engineered marble or Quartz.**

### PACKAGING:

1 Litre & 5 Litre cans

### COVERAGE:

15 to 100 sft per litre depending upon Nature and density of the stains.

### STORAGE:

After usage, close the container well sealed to avoid contamination and solvent loss. Store in original container only. Store and use between temperature 4° C and 40° C

### WARRANTY:

MYK LATICRETE India Pvt Ltd warrants that MYK LATICRETE® CLENZA GA is free from manufacturing defects and will not break down, deteriorate or disintegrate under normal usage for a period of One (1) year from date of manufacture subject to the terms and conditions stated in MYK LATICRETE Product Warranty

### MAINTENANCE:

**NOTE:** All impregnating sealers and cleaners are maintenance products and hence surfaces applied with sealers need careful maintenance.

Maintenance of the sealed surfaces should not be done with general cleaner chemicals. Plain soft water is recommended to clean the surface. For periodic cleaning we recommend to use our MYK LATICRETE CLENZA AQ, neutral, water based cleaner. Acidic cleaners are STRICTLY NOT recommended. Please refer the Maintenance manual for more details.
